Jesus died for you! In this game Jesus will die because of you!. A very challenging game that is definitely going to rock you to your very core with both fear and an unsettling erection the size of which may vary depending on the amount of stars collected on level 18.

Speaking of which you are probably best just skipping level 18 as it took me three weeks and the better part of my wife's pregnancy to beat this level. Other than that save Jesus is a great game for indoctrinating the youth into the leftist ideology.
